Sir:

PETITION UNDER 37 C.F.R. §1.84(2)

Applicants submit this Petition for the acceptance of color drawings corresponding to Figures 1-4 of the above-identified patent application. The figures illustrates in fine, photographic-quality, detail how the methods claimed in the subject application are able to characterize samples of biological materials stained with a variety of colorimetric reagents utilized in the relevant art. The color of these figures significantly enhances the level of detail depicted therein, apprising those skilled in the art of the selective staining characteristics of the claimed methods (e.g. the ability to colorimetrically label a targeted biological molecule with relatively little background staining), features which are relevant to practice of the claimed invention.

Applicants submit herewith the fee set forth in 37 C.F.R. §1.17(h) and three (3) sets of color drawings corresponding to Figures 1-4 of the above-identified application. The specification of the subject application, which is being filed herewith, includes the paragraph required by 37 C.F.R. §1.84(2)(iii) as the first paragraph in that portion of the specification relating to the Brief Description of the Drawings.

Respectfully submitted,

Dennis J. Slamon et al.
